

KEYSTONE SYMPOSIA

Connecting the Scientific Community

Biomarker Discovery, Validation and Applications

Organizers: Mark S. Boguski and Jean-Jacques Garaud

February 3-8, 2008

Granlibakken Conference Center and Lodge,
Lake Tahoe, California

SUNDAY, FEBRUARY 3

Keynote Address — Molecular Markers for Disease Stratification from Genes to Proteins in Metabolic Disease

John Bell, University of Oxford

MONDAY, FEBRUARY 4

New Strategies for Biomarker Discovery and Use

Michael Gillette, Broad Institute
Eleftherios Diamandis, Mount Sinai Hospital, University of Toronto
Mark S. Boguski
Christoph W. Turck, Max Planck Institute of Psychiatry

Biomarker Qualification

Michael S. Bittner, TGen
David F. Ransohoff, University of North Carolina at Chapel Hill
Christie L. Hunter, Applied Biosystems

TUESDAY, FEBRUARY 5

Imaging Biomarkers 1

Jan E. Schnitzer, Sidney Kimmel Cancer Center
Perry F. Renshaw, Harvard Medical School
Mitchell Albert, Harvard Medical School
Additional Speaker to be Announced

Genomic Strategies

Joseph R. Nevins, Duke University Medical Center

Imaging Biomarkers 2

Gary J. Kelloff, National Institutes of Health
Jonathan H. Gillard, University of Cambridge

WEDNESDAY, FEBRUARY 6

Multiplex Biomarkers and System Response Profiles

Jacques F. Banchereau, Baylor Institute for Immunology Research
Joachim L. Schultze, University Hospital of Cologne
Gordon B. Mills, University of Texas MD Anderson Cancer Center
Jay W. Heinecke, University of Washington School of Medicine

WEDNESDAY, FEBRUARY 6 (continued)

New Technologies

Peter W. Laird, University of Southern California / Norris Comprehensive Cancer Center
Ruth Birner-Grünberger, Medical University of Graz
Additional speaker to be announced

THURSDAY, FEBRUARY 7

Translational Medicine and the Critical Path 1

Jean-Jacques Garaud, F. Hoffmann-La Roche Ltd
Richard Levine, National Institutes of Child Health and Human Development
Joffre Baker, Genomic Health, Inc.
Bradley Efron, Stanford University *

Translational Medicine and the Critical Path 2

Maryellen de Mars, Critical Path Institute
Denis Hochstrasser, University Hospital of Geneva
Frank D. Sistare, Merck Research Laboratories

Note: Agenda and speakers subject to change. * Speaker invited; not yet confirmed.
